2018/2019 CSTADS Survey Data Codebook

The following is the data codebook for the 2018/2019 CSTADS data file. The questionnaire was intentionally designed with no respondent-use skip patterns and includes response options like “I do not smoke” and “I did not use”. These response options help avoid the identification of substance users by rate of questionnaire completion time in the classroom. However, there are incidents in which skip patterns have been imposed or added during the preparation of the PUMF. Any valid skip coded in the PUMF is, by definition, imposed.

Identification Variables

Question	Variable Name	Values
Student survey identification number <i>Coverage: All Respondents</i>	SCANID	100000 : 299999 = Six-digit survey scanid value
Module the respondent filled out <i>Coverage: All Respondents</i>	MODULE	1 = English 2 = French
Province ID Number <i>Coverage: All Respondents</i>	PROVID	10 = Newfoundland and Labrador 11 = Prince Edward Island 12 = Nova Scotia 13 = New Brunswick 24 = Québec 35 = Ontario 46 = Manitoba 47 = Saskatchewan 48 = Alberta 59 = British Columbia
